Training package 3 - Initiation and training in the use of screwing systems

2° Specific applications for screwing with automatic cap removal

Created in 2017, CHABOT DELRIEU SERVICES is a subsidiary of the company Chabot Delrieu Associés (CDA), manufacturer of filling and labelling machines since 1991.

CDA designs, manufactures and sells packaging machines for a wide range of sectors (wine, food, cosmetics, e-cigarette, construction, agriculture, etc.).

In order to use your CDA machines safely and optimally, our CDS training centre offers customized training courses adapted to the specific needs of your production or maintenance teams and your machine park.

Our trainings usually take place on your site, on your machines in real condition but we can also welcome you in our premises.

Our training courses are given by our highly qualified technicians with their diplomas and experience.

The training team
